EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

2. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the art does not teach or suggest producing a ¹⁸F labeled FACBC via attachment to a SO₂O-linker-solid support. The art teaches of the

halogenation of solid supports-linker-SO₂O- moieties and [¹⁸F]fluorohaloalkane preparation via a solid support-organosilyl linker moiety but not that of the instant claims. An obvious double patenting rejection was considered over claims 1 and 2 of application 10/482,540 but was excluded as there was not motivation to substitute the ¹⁸F-labeled tracers of 10/482,540 with the ¹⁸F-FACBC of the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
